# Reference Group Data Report

---

## Spring 2013

The ACHA-NCHA II supports the health of the campus community by fulfilling the academic mission, supporting short- and long-term healthy behaviors, and gaining a current profile of health trends within the campus community.

Suggested citation for this document: American College Health Association. American College Health Association-National College Health Assessment II: Canadian Reference Group Data Report Spring 2013. Hanover, MD: American College Health Association; 2013.

*Campus Demographical Characteristics were revised on September 11, 2013*

## Demographics of Participating Institutions

Thirty four Canadian postsecondary institutions self-selected to participate in the Spring 2013 ACHA National College Health Assessment and 38,171 surveys were completed by students on these campuses. For the purpose of forming the Reference Group, only Canadian institutions that surveyed all students or used a random sampling technique are included in the analysis AND agreed to have their data included, yielding a final data set consisting of 34,039 students and 32 schools. *All schools collected data via the ACHA-NCHA web survey. The mean response was 20% and the median was 19%.*

Demographic characteristics of the 32 campuses follow:

<b>Demographical Characteristics of the 32 Postsecondary Institutions Included in the Spring 2013 CANADIAN ACHA-NCHA II Reference Group.</b>	
<b>Campus Characteristic</b>	<b><i>n</i></b>
Type of Institution	
Public	30
Private	2
2-year	0
4-year or above	26
Offer both 2-year and 4-year degrees	6
