## Reference Group Data Report

---

### Fall 2011

The ACHA-NCHA II supports the health of the campus community by fulfilling the academic mission, supporting short- and long-term healthy behaviors, and gaining a current profile of health trends within the campus community.

## Demographics of Participating Institutions

Fifty two postsecondary institutions self-selected to participate in the Fall 2011 ACHA National College Health Assessment and 29,939 surveys were completed by students on these campuses. For the purpose of forming the Reference Group, only institutions located in the United States that surveyed all students or used a random sampling technique are included in the analysis, yielding a final data set consisting of 27,774 students and 44 schools. **This report includes only data from 23,518 UNDERGRADUATE students at 44 institutions.** Demographic characteristics of the 44 campuses follow:
