Demographics of Participating Colleges/Universities

Eighteen US postsecondary institutions self-selected to participate in the Fall 2002 National College Health Assessment and 11,036 surveys were completed by students on these campuses. For the purpose of this study, only those institutions that used a random sampling technique will be included in the analysis, yielding a final data set consisting of 10,374 students on 15 campuses. Demographic characteristics of the 15 campuses follow:
