Reference Group Data Report

Fall 2009

The ACHA-NCHA II supports the health of the campus community by fulfilling the academic mission, supporting short- and long-term healthy behaviors, and gaining a current profile of health trends within the campus community.

Demographics of Participating Institutions

Sixty-five postsecondary institutions self-selected to participate in the Fall 2009 ACHA-National College Health Assessment and 37,657 surveys were completed by students on these campuses. For the purpose of forming the Reference Group, only those institutions that surveyed all students, or used a random sampling technique are included in the analysis, yielding a final data set consisting of 34,208 students and 57 schools. Demographic characteristics of the 57 campuses follow:
